Anniversary

EXQUISITE SOUND & ELEGANT DESIGN

The new Casio Privia PX-830 creates a new digital piano category with unprecedented sound quality and performance in an exquisite new cabinet. Featuring all new grand piano samples, a new "Ivory Touch" Tri-Sensor 88-note scaled hammer action keyboard, the dynamic sound and appearance of the Casio Privia PX-830 will make a perfect addition to any home.

Realism, Expression and Dynamics:

The grand piano sounds in the PX-830 delivers an unprecedented level of realism and expression. Four dynamic layers of stereo piano samples are integrated with Casio's proprietary Linear Morphing System, resulting in a grand piano sound with seamless transitions and a superior dynamic range. For added realism, the PX-830 simulates the sound of the open strings when the dampers are raised by the pedal using Acoustic Resonance DSP. The PX-830 also has 128-note polyphony, enough horsepower for the most demanding musical passages and the ability to layer sounds and use the damper pedal without worry of dropped notes. Reinforced by a new dual 20W speaker system, the result is a grand piano experience that is unmatched at any price.

Truly Expressive Touch:

The Privia PX-830 features a new "Ivory Touch" Tri-Sensor 88-note scaled hammer action keyboard. Casio's superior engineering has resulted in an authentic piano touch that captures every detail and nuance of your performance. The matte finished keys and scaled hammer action provides the weight, feel and resistance of an acoustic grand piano.

Exquisite Design:

Available in either black matte or black polish, the PX-830's cabinet captures the enduring aesthetic beauty of an acoustic piano in a slim, elegant design that is the hallmark of the Privia line.
